SERVICE +

DESIGN DEPARTMENT

Do you have an original creation in mind? Your ideas deserve exceptional packaging. Our design department is at your disposal to assess your project and provide solutions that meet your expectations.

CUSTOMIZATION

You can customize some of our products with your logo (kraft boxes, woodbox, meal trays, napkins, etc.) using pad printing, offset printing, or engraving techniques.

SAMPLES

To satisfy your curiosity, choose the right capacity, or do kitchen tests, we can be sent samples for most of our products. *The decision to charge samples remains at our discretion depends (displays can't be sent as samples).

ESAT PARTNERSHIP

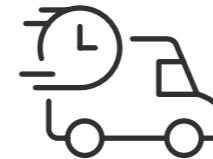

Over 30 years, Comatec create a long partnership with ESATs (Work Assistance Establishments) in Aude. We collaborate with individuals with disabilities for assembling our meal trays, making cutlery kits, and custom some packaging (e.g. you can ask to create your own cutlery kit with your napkins).

FRANCE DELIVERIES

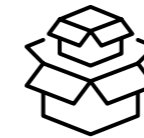

For orders exceeding €390 (excluding taxes), shipping is free. Freight charges will be 47€ (excluding taxes) below 390€ of goods. Delivery is guaranteed within 72 working hours for 98% of orders placed before 1 pm. Delivery times may be extended during busy periods.

For deliveries to Corsica and overseas, please contact us for rates and timings.

48H DELIVERY (FIRST)

For all orders confirmed before 1 pm, delivery is scheduled for the day after the next (working day). Please contact us for pricing details.

INTERNATIONAL SHIPPING

Comatec is an Authorized exporter (AE No. FR003480/0176) and as well an Registered Exporter (REX No. FRREX20221934) . These certifications give you custom advantages such as reduced or eliminated custom duties for preferential origin products under free trade agreements.

PAYMENT TERMS & PRICES

Payment for your first order will be in payment before departure. For subsequent orders and with the agreement of our accounting department payments can be made within 30 days net. Accounting department contact: 04 68 72 77 92. All prices are exclusive of tax. The applicable VAT is 20% or 5.5% for food products (or according to the VAT rate in effect at the invoice date). Prices are subject to change based on raw material cost fluctuations. Prices are guaranteed until 31/12/2024.

MEMO

CUSTOMER ACCOUNT
NUMBER

You will find your customer code on our sales documents. This guarantees that your order will be processed quickly and error-free. Create your customer account online on our website www.comatec.fr or with our dedicated team contact@comatec.fr

The First Environmental Benchmark in the Packaging Universe

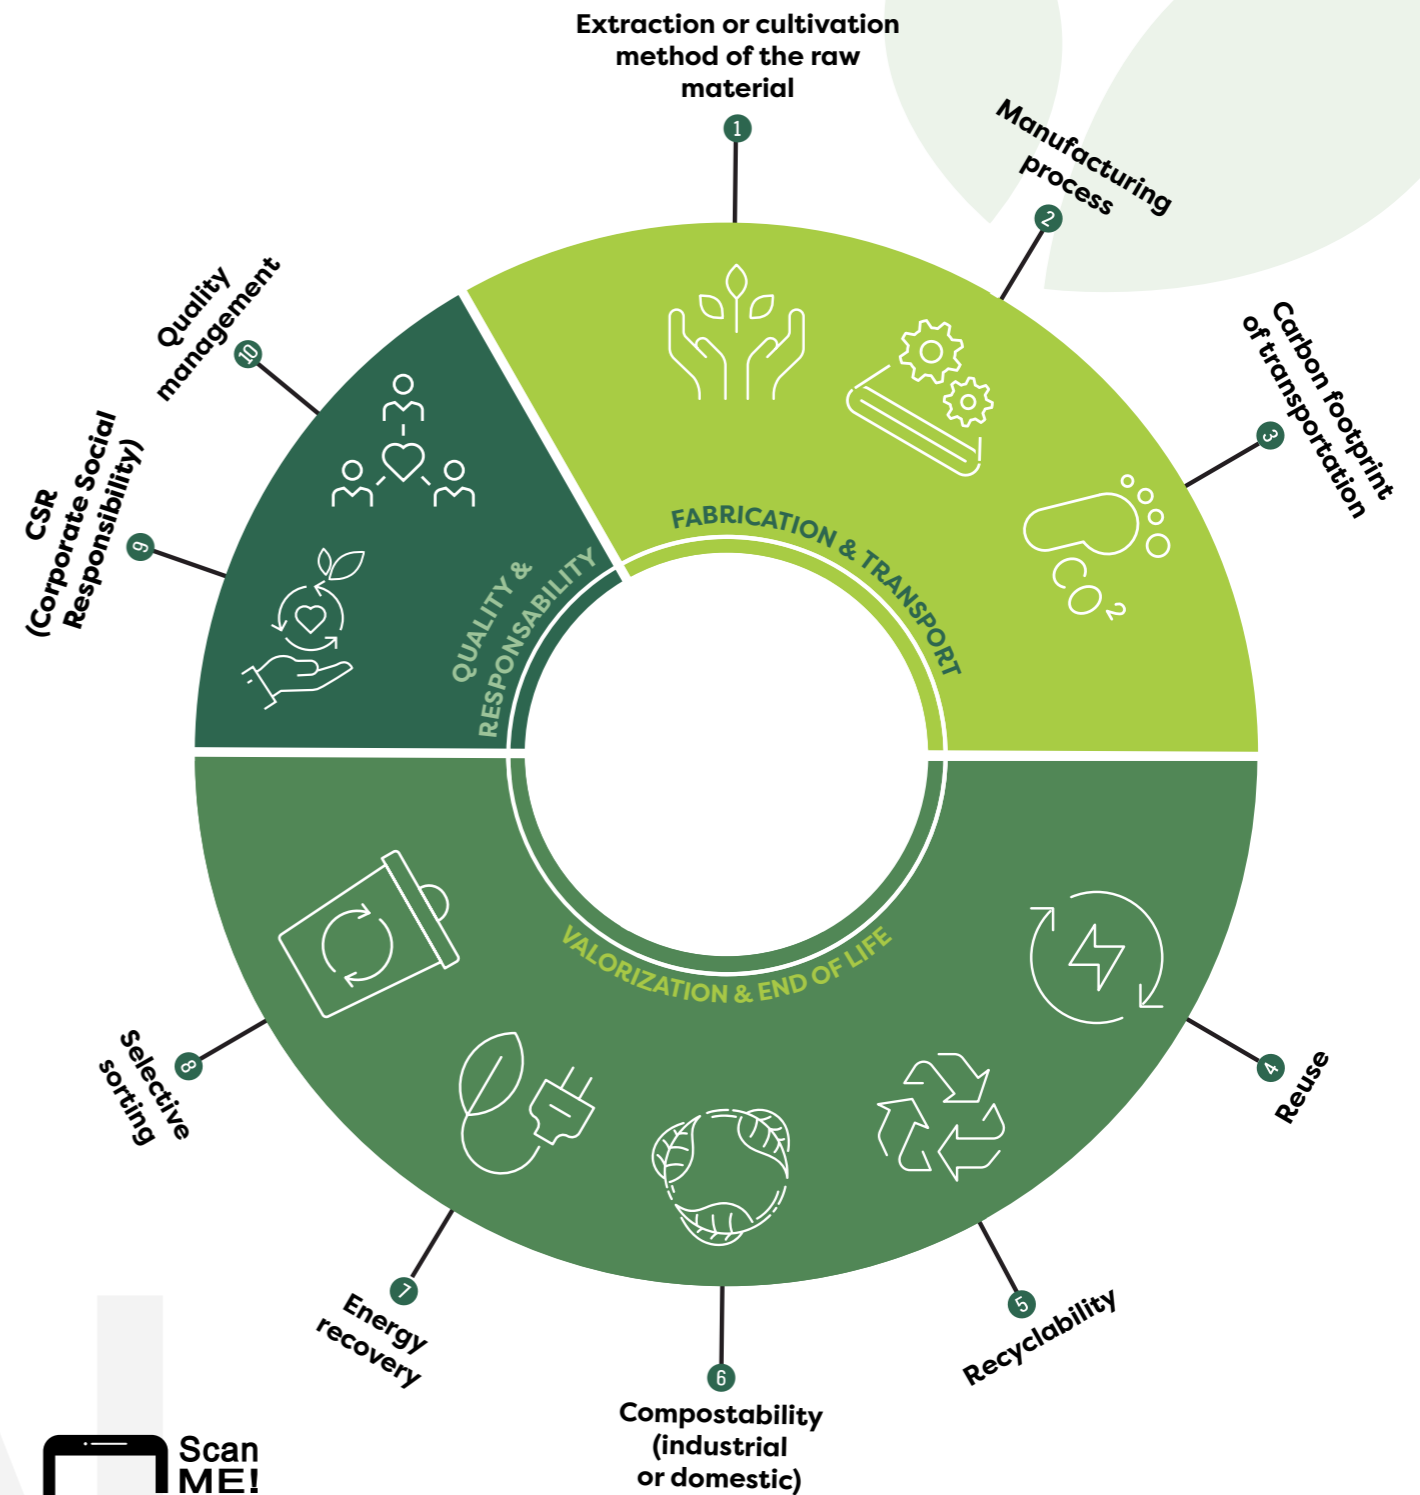

Planetscore.eu

Today, more than more than half of COMATEC's 1300 COMATEC references have an A+, A or B score

Created by Comatec with its 2020 catalog, the PlanetScore informs about the environmental impact of packaging. Based on 10 criteria, including the method of raw material extraction or cultivation, manufacturing processes, and end-of-life valorization, it offers transparency on the materials chosen and their ecological footprint. Today, over half of the 1300 COMATEC references boast an A+, A, or B score, making PlanetScore an indispensable tool for any professional in the catering industry seeking responsible packaging options. Comatec is committed to continuously guiding you by soon presenting the evolution of the PlanetScore. For more details, visit planetscore.eu.

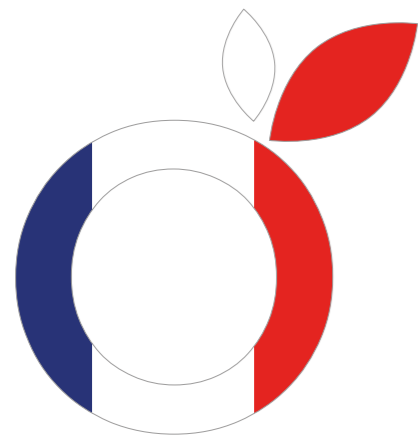

A score based on 10 criteria:

OUR COMMITMENTS

30 YEARS OF SUSTAINABLE COMMITMENT:

Aware of our social and environmental responsibilities, we have integrated sustainable development into our corporate strategy since Comatec was founded in 1994. Our commitment is reflected in concrete actions centered around three key issues: French manufacturing, eco-design, and social engagement.

FRENCH MANUFACTURING

By maintaining production in France, Comatec supports the expertise of its local partners and plays an important role in its economic environment. The design and quality of our products are acknowledged and appreciated by catering professionals both in France and internationally.

ECO-DESIGN

Comatec places great importance on incorporating eco-design principles into its product offerings. Products that are reusable, recyclable, or made from natural or certified materials (FSC® and PEFC) are increasingly prevalent, aligning with current environmental challenges. In pursuit of this goal, Comatec has introduced the PlanetScore, an eco-responsibility index, to help partners choose their packaging wisely.

SOCIAL ENGAGEMENT

Comatec is deeply involved in addressing the social and human challenges of our time. This begins with ensuring the well-being of our employees and extends to supporting the integration of people with disabilities. Over 100 individuals work daily in ESATs (Work Assistance Establishments) for Comatec, making the company the primary private partner of ESATs in Aude.

UPCOMING DEADLINES WITH THE AGECE LAW ?

2023

OBLIGATION TO USE REUSABLE DISHES

In catering establishments serving more than 20 covers at table (Prohibition on the use of disposable tableware)
 > **COMATEC has developed a range of reusable products in several materials to meet your needs.**

2024

BIO-WASTE MUST BE SORTED AND RECYCLED

(valid for professionals and individuals)
 > **Bio-waste includes, in particular, food waste from kitchens and tables. Let's talk about it, we can advise you.**
 Implementation of a new Extended Producer Responsibility (EPR) scheme for packaging in the catering sector.

2025

ALL SINGLE-USE PLASTIC PACKAGING MUST BE RECYCLABLE

> **COMATEC is committed to this issue and is actively working to offer you a range of 100% recyclable plastic products.**
 50% reduction in food waste by 2025 (compared to 2015 figures) for mass catering. The deadline is extended to 2030 for commercial catering.

2029

TARGET 90% OF PLASTIC PACKAGING MUST BE COLLECTED FOR RECYCLING.

2040

END OF SINGLE-USE PLASTIC PACKAGING

> **COMATEC continues to offer you a range of innovative, reusable products in different materials to meet your needs.**

ADDITIONAL INFORMATION

> **The AGECE law is a French law on the fight against food waste and for a circular economy.**
 > **The law was adopted in February 2020 and includes a number of measures to reduce food waste and promote the use of reusable and recyclable materials.**
 > **The image shows the key deadlines for businesses and individuals to comply with the AGECE law.**

RESPONSIBLE

HOW TO CHOOSE YOUR MATERIAL?

BAGASSE

A natural by-product of sugarcane.

THE + PRODUCTS

Good resistance to water, grease, heat, and light.

PALM

Derived naturally from the areca palm leaf sheath. No treatment or additives are used in the production of this tableware.

THE + PRODUCTS

100% natural, water and grease impermeable, heat resistant, and each piece is unique.

BAMBOO

A fast-growing, water-efficient natural woody grass.

THE + PRODUCTS

Durable, lightweight, and maintains well in humidity.

PP | PP-TALC

Plastic transformed by injection, offering a wide variety of shapes. The addition of talc makes products more rigid and reduces plastic use by up to 20%.

THE + PRODUCTS

Solid, microwave-safe, lightweight, shock-resistant, and can be colored.

PS

Plastic transformed by injection, allowing diverse forms.

THE + PRODUCTS

Lightweight, transparent with a glossy finish, and can be colored. Some PS products are tested for being washable at least 20 times, thus reusable.

TRITAN™

A type of plastic polymer transformed by injection.

THE + PRODUCTS

Transparent, solid, shock-resistant, and lightweight.

GLASS

Available in two types: soda-lime (classic), containing 70% silica (avoid thermal shock > 30°C), and borosilicate, consisting of 80% silica.

THE + PRODUCTS

Transparent, solid, scratch-resistant, waterproof, no transfer of smell or taste.

BOROSILICATE GLASS

Borosilicate glass Available in two types: soda-lime (classic), containing 70% silica (avoid thermal shock > 30°C), and borosilicate, consisting of 80% silica.

THE + PRODUCTS

Transparent, solid, scratch-resistant, waterproof, no transfer of smell or taste.

CÉRAMIC

A combination of three natural elements: earth, water, and fire, allowing for a variety of shapes, from classic to modern.

THE + PRODUCTS

Heat-resistant, solid, waterproof, no transfer of smell or taste, and corrosion-resistant.

WOOD (RAW OR WITH COATING)

Sourced primarily from French poplar forests.

THE + PRODUCTS

Lightweight and offers no taste transfer, making it a valuable option for eco-friendly packaging and utensils.

CARDBOARD | PAPER (RAW OR COATED)

Vegetable fibers from trees processed into cellulose and then layered to produce cardboard.

THE + PRODUCTS

Lightweight, great potential for promotional support, customization possible.

PET | rPET

Plastic transformed through blow molding or thermoforming. rPET is recycled PET.

THE + PRODUCTS

Lightweight, flexible, and transparent.

ALUMINIUM

Interior coating (as in cans) to protect food.

THE + PRODUCTS

Unbreakable, lightweight, waterproof, and sturdy.

STAINLESS STEEL

18/8 stainless steel.

THE + PRODUCTS

Unbreakable, lightweight, waterproof, and sturdy - resistant to corrosion.

WOODLERY

Exclusively for Europe, COMATEC presents WOODLERY, a distributor of special and customizable wooden cutlery. Optimal hygiene: zero contact during filling and use, no risk of contamination. Practical, it is very easy to fill and use. No waste or over-packaging. Customizable by inserting a poster on the side walls (18.8 x h33.5 cm). Elected «bakery nugget 2023» by Honoré le Mag, the CEBP and the FEB.
